- JSON

Transferrable Skills

- Problem Solving
- Team Collaboration
- Adaptability

ACADEMIC BACKGROUND

FULL-STACK WEB DEVELOPMENT

CareerFoundry / 2023-2024

Completed a full-stack web development program with a focus on the MERN stack.

CULINARY ARTS

Johnson & Wales University - North Miami / 2014-2015

- Graduated with distinction (Magna Cum Laude)

LANGUAGES

Spanish: Fluent
English: Fluent
Italian: Beginner

PROJECTS

POKÉDEX

Timeframe: Aug 2023-Sept 2023
Role: Developer
Description: A simple Pokédex app that displays the Pokémon's name, artwork, shiny variant, types and abilities.
Key Achievements: Integrated an external API to dynamically fetch and display Pokémon data, including artwork, shiny variants, types, and abilities. Implemented interactive modals using jQuery to enhance user experience when viewing detailed Pokémon information.
Tools Used: HTML5, CSS3, JavaScript, jQuery, External API

NVFLIX

Timeframe: Sept 2023-Nov2023
Role: Developer
Description: NvFlix is a movie web application that enables users to create profiles and explore a selection of films, powered by a custom RESTful API.
Key Achievements: Designed and built a movie web application with a custom RESTful API for seamless user profiles and movie browsing. Developed an Angular and TypeScript version, optimizing data fetching for better performance and resolving navigation and signup issues for an improved user experience.
Tools Used: React, Bootstrap, MongoDB, Node.js, Postman, Express.js, RESTful API, Angular, Typescript

MEET ME: WEB APP

Timeframe: Feb 2024-March 2024
Role: Developer
Description: A serverless, progressive web application with React using a TDD technique. Uses Google Calendar API to fetch upcoming events.
Key Achievements: I developed a serverless, progressive web app using React and AWS Lambda, integrating Google OAuth 2.0 for secure authentication and visualizing event data with Recharts, while maintaining high test coverage through TDD practices.
Tools Used: React, AWS Lambda, Jest-Cucumber, Puppeteer, Atatus, Recharts, Google APIs, Google OAuth 2.0

WORK SUMMARY

WHOLESALE PRODUCT SPECIALIST

Sherwin Williams | 2023-present

- Build strong customer relationships, translating feedback into actionable insights for user-centered design improvements, enhancing customer satisfaction.
- Master POS systems quickly, showcasing technical adaptability and problem-solving.
- Engage a diverse customer base, optimizing service efficiency through bilingual skills and adaptability, similar to optimizing user interfaces across multiple platforms.
- Collaborate with team members to streamline operations, similar to optimizing processes in web development projects

SOUS CHEF

South City Kitchen-Buckhead | March 2022- Oct 2022

- Promoted from Jr. Sous Chef to Sous Chef within 2 months by quickly mastering all kitchen stations.
- Leveraged workflow optimization techniques from managing kitchen operations to streamline web development project timelines using Agile methodologies
- Resolved team conflicts and optimized collaboration through SCRUM methodologies, improving team dynamics in both culinary and development projects.
- Developed training programs for new employees, demonstrating leadership and the ability to communicate complex ideas.

CHEF DE PARTIE

JW Marriott Turnberry | May 2016- February 2022

- Worked across multiple outlets, adapting quickly and implementing new procedures, reflecting flexibility in learning new technologies.
- Led kitchen operations, applying process optimization and quality control measures, similar to managing full-stack development projects and implementing automated testing.
- Pioneered training programs, demonstrating leadership in both culinary and technical environments, including mentoring junior developers and optimizing development workflows.

CULINARY INTERNSHIP

Wyndham Grand Rio Mar Rainforest Beach and Golf Resort | September 2015- November 2015

- Collaborated on new menu development, showcasing creativity and teamwork, transferable to designing and implementing innovative web solutions.
- Adapted to various culinary styles, reflecting versatility in learning new frameworks and technologies.

BROILER CHEF

Ponderosa Steakhouse | February 2013- January 2014

- Developed foundational culinary skills while working in a fast-paced environment, showcasing adaptability and attention to detail under pressure.
